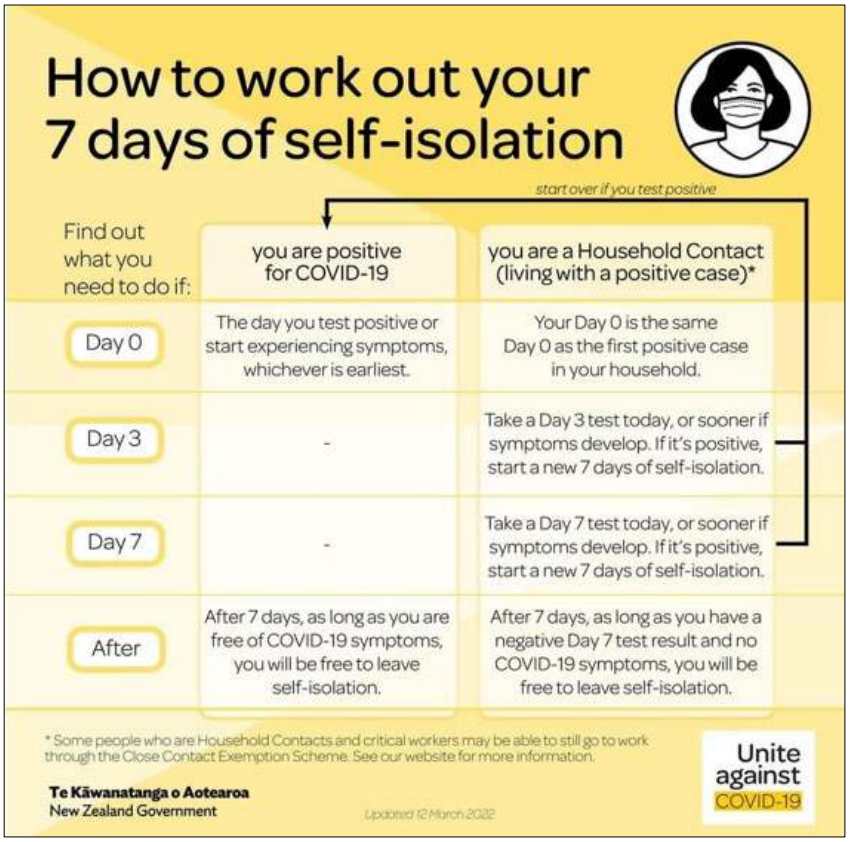
OMICRON UPDATE #5

14 March 2022

Kia ora Parents/Whānau and Students,

As we continue to navigate the ever-changing landscape that is Omicron, some of our students are having to isolate at home because they are either COVID-19 positive or are household contacts. We hope they remain well during this period of isolation and focus on their health as a priority.



Due to the changes with isolation timeframe from 10 days to 7 days we have provided the above diagram to assist you with the process.

Those students isolating, do have access to online learning via the school. Only when students are well and able, should they check the learning platforms (Google Classroom or Teams), for the work been covered in class during their absence. There is no assumption on our part that students will complete all work before they return to school.

If you need any help or have any questions regarding this email, please contact our Deputy Principal, John Grogan: john.grogan@southlandgirls.school.nz , Phone: 03 211 6030.

Ngā mihi,

Yvonne Browning
Principal
