Personal Learning Conferences are a partnership between the student, whanau and the school.

For students, the Conferences are an opportunity to:

- Develop and extend their ability to talk about learning.
- Deepen their relationship with their parents/caregivers around their school learning, to celebrate what has been learnt.
- Shape their ability to clarify what they are learning and assess their own progress.
- Reflect on their learning and modify it as a result of the reflection.

For parents, the Conferences are an opportunity to:

- Actively and meaningfully support your daughter in her learning.
- Understand more fully what she is learning and the progress she is making.
- Support your daughter with her goals.
- Enjoy a rich, learning-orientated conversation with your daughter and her teacher.
- Be aware of how much your daughter is taking responsibility for her own learning.

Some suggestions to think about...

- What do you and your daughter feel that she does well and why?
- What do you and your daughter feel that she needs to improve and why?
- What does your daughter enjoy doing when she is not at school?
- Things I want the school to know about my daughter.

We look forward to seeing you all at your daughter's Personal Learning Conference.

Nga Mihi,

Yvonne Browning
