

Term 1 News

We have had a busy term with Liaison visits from ARA, Otago University, University of Canterbury and Otago Polytechnic for our Year 13 students who are preparing for their next step after school.

We have had visits from NZ Defence Force to talk about career opportunities & NZ Cadet Forces to talk to the Year 9-10's about the outdoor adventure training & leadership training they offer.

Murihiku Tertiary Academy and STAR courses are underway with more to come in Term 2 & 3. Our Gateway students are ready to start their work experience placements across a number of different industries. There are more places available so if any students are interested in learning more about it, please see Mrs Smith in Connexions.
