TTM Controller positioned to direct traffic & control Pedestrians
Transport World Function Centre
During Ball Events approximately 100 cars will drive through the canopy area of Transport World dropping off event attendees. Two vehicles positioned in drive through at a time.
Approx 100 vehicles expected taking 30 min in total to unload all passengers
Vehicles advised by events centre to queue along Tay St in the parking spaces.
Events are held during evening times outside of peak period traffic volumes.
