This event supports the upgrade of our administration block—an essential part of our school that isn't funded by the Ministry of Education.

The administration block plays a vital role in supporting students, staff, and families. Improving these facilities will strengthen the services that help our school thrive.

This upgrade is also part of our preparations for Southland Girls' High School's 150th Anniversary in 2029.

As we welcome past, present, and future generations to celebrate this proud milestone, we want our facilities to reflect both our legacy and our future.
